

July 7<sup>th</sup>, 2008

Mr. Frank Bevacqua,

Having lived along the Lake Ontario shore  
for over 30 years, I have seen this  
great body of water change dramatically.

The amount of pollutants in the lake  
are harmful to both people and the  
same fish populations and need to be  
addressed as soon as possible. Nature  
has always had a way of healing  
itself and repairing mans damage.

Please support, "the B+ plan", and maybe  
our own grandchildren can benefit from  
cleaner, safer, more eco friendly great  
lakes system.

Thank-you,

John F. Lepiastie
