DATE: July 8, 2008

As a resident of New York State and a person who enjoys visiting and camping along Lake Ontario and the St. Lawrence River I am in support of CCE and their efforts to see Plan B+ adopted and implemented.

For over 20 years my family and I have been traveling to various regions on the St. Lawrence River and Lake Ontario and plan on continuing to do so. Over those years we have seen some changes in the conditions of the environment and not for the better.

We would like to continue to take advantage of these great natural resources that we have in New York State and believe that they need to be maintained properly so that future generations can also benefit.

Please do what is in your power to adopt a firm deadline to implement Plan B+.

I look forward to hearing your views on this concern.

Thank you.

Respectively,

Fred Freytag
