Dear Mr. Bevacqua:

I am writing to voice my support of a healthy Lake Ontario and St. Lawrence River ecosystem and in support of the B+ Plan.

Plan B+ will provide a more natural variability to the water levels; enhance the fish spawning and nursery grounds in the coastal wetlands. In turn the ecosystem will be able to thrive and become more resilient to the threat of invasive species and polluted run-off.

I would appreciate you lending your support to helping to keep New York States waterways clean and green!

Sincerely,

Dianne M. Harris
