INTERNATIONAL JOINT COMMISSION  
2008 JUL 15 P 2:07

Frank Bevacqua  
Public Information Officer  
International Joint Commission  
US Section  
2401 Pennsylvania Avenue, NW  
Fourth Floor  
Washington, DC 20440

Dear Mr. Bevacqua,

As a resident of central NY, I am concerned about Lake Ontario and the St. Lawrence River. These waterways are not only vital to commerce but also to recreation and our wildlife. We have frequently camped along the St. Lawrence and the shores of Lake Ontario with our family and enjoyed fishing, swimming and boating. An environmentally sound water management plan must be adopted now. I urge you to support Plan B+ to create a healthier environment and benefit the majority of users of the St. Lawrence and Lake Ontario, including fishermen, recreational boaters, hydropower, and municipal water users.

Thank you.

Sincerely yours,

Rosemary A. Salamone

Liverpool, NY
