Washington, DC 20440

I am writing to urge you to protect the Upstate New York economy and environment by adopting a firm deadline to implement Plan B+. I feel this is so important. My Father who has been an avid fisherman his entire life and is 88 years old feels so badly that so many fish are not to be caught any longer because they hardly exist. He always fished in Lake Ontario and says it's a shame what we've done to the waters that are killing the fish and wild life.

Sincerely,

Sharon Smith
