IJC JOINT COMMISSION
2008 JUL 15 P 2:05

Dear Mr. Bevacqua,

I am a resident of Rochester, New York. My home is located just one mile from Lake Ontario. The current state of the lake is an embarrassment to the local community. Tourists and locals alike who frequent the lake are restricted to the activities they can partake in because of its high pollution. The B+ Plan not only needs to be implemented, but it needs to be done in a timely manner. Leaving the solution on the backburner does nothing to improve the environment. Action needs to be taken immediately in order to reap the benefits that Plan B+ will provide the community and the wildlife. The people of Citizens Campaign for the Environment have worked hard to generate a logical solution and to raise awareness of this growing problem. They deserve to be recognized for their efforts. Implementing Plan B+ is the perfect way to thank the selfless citizens who have dedicated their time to our environment.

Sincerely,

Emily L. Adams

Rochester, NY
