

Dear Frank Bevacqua,

I support Plan B+ and hope you will do everything you can to make sure it is adopted as policy now! Lake Ontarios health is critical to Upstate New Yorks economy and wildlife. The Great Lakes are an important resource and water levels should not be manipulated to serve a few at the expense of an entire ecosystem.

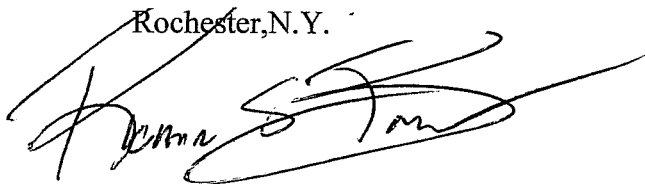

We enjoy swimming at Charote Beach, but many times the beach is closed to poor water quality. This may be a result of fluctuating water levels.

In conclusion please adopt a firm deadline to implement Plan B+. I would appreciate a follow up letter with your thoughts.

Sincerely,

Richard S. Borcyk

Rochester, N.Y.
