

July 16, 2008

Dear Mr. Broaccyua,

Please work to adopt Plan B+ to help maintain the health of the Great Lakes. They are so important to the economy and beauty of this region.

A balanced water management plan help maintain the local economy and recreational benefits of this area.

I would urge ~~to~~ <sup>you</sup> to work to implement Plan B+ to a definite time schedule. Do not allow this huge environmental benefit to languish.

Sincerely

Daniel R. Glueck
