The International Niagara Board of Control is a bi-national organization reporting to and advising the International Joint Commission on matters regarding water levels, flows and similar subjects pertaining to the Niagara River.

The purpose of this open house is to inform the public of the Board's current activities and to hear public comments and suggestions regarding the Board's work. In addition, information will be presented on the operation of the Lake Erie – Niagara River Ice Boom, revision of the Ashland Avenue rating used to determine flows over Niagara Falls and current Great Lakes' water levels.
